Volume 92 1978

Table of Contents

No. 1 1–316 issued on December 1, 1978
No. 2 317–632 issued on December 15, 1978

631 Corrections

Nucleic Acids, Protein Synthesis, and Molecular Genetics

45 Protein Bound to the Genome RNAs of Cowpea Mosaic Virus
S. D. Daubert, G. Bruening, and R. C. Najarian

69 5′-Terminal 7-Methylguanosine and mRNA Function. The Effect of Enzymatic Decapping and of Cap Analogs on Translation of Tobacco-Mosaic-Virus RNA and Globin mRNA *in vitro*
A. Wodnar-Filipowicz, E. Szczesna, M. Zan-Kowalczewska, S. Muthukrishnan, U. Szybiak, A. B. Legocki, and W. Filipowicz

121 Stimulation of Polypeptide Polymerization in *Escherichia coli* Ribosomes by Modification of Ribosomal Sulfhydryl Groups with *N*-Bromosuccinimide
A. López-Rivas, D. Vázquez, and E. Palacián

129 Two Different Types of Bonds Linking Single ADP-Ribose Residues Covalently to Proteins. Quantification in Eukaryotic Cells
R. Bredehorst, K. Wielckens, A. Gartemann, H. Lengyel, K. Klapproth, and H. Hilz

155 The Effect of Salt Concentration on the Inhibition of Protein Synthesis by Double-Stranded RNA
C. Baglioni, J. R. Lenz, and P. A. Maroney

225 The 50-S Ribosomal Subunit Inhibits Functional Interaction between the 30-S Subunit and Phage RNA
P. Zipori, L. Bosch, G. van Dieijen, and G. A. J. M. van der Hofstad

235 Translation of MS2 RNA *in vitro* in the Absence of Initiation Factor IF-3
P. Zipori, L. Bosch, and J. van Duin

243 Identification of Cysteine-10 of Protein S18 as Part of the mRNA-Binding Site of *Escherichia coli* Ribosomes by Affinity Labeling Studies with a Chemically Reactive A-U-G Analog
M. Yaguchi, E. Lanka, B. Dworniczak, H.-H. Kiltz, and O. Pongs

261 Effect of Poly(ADP-ribose) Formation on DNA Synthesis in Chick-Embryo-Liver Nuclei. Possible Mechanism of Template Activation
Y. Tanigawa, A. Kitamura, M. Kawamura, and M. Shimoyama

271 Accessibility of Ribosomal Proteins to Lactoperoxidase-Catalyzed Iodination Following Phosphorylation and During Subunit Interaction
P. W. L. Tas and B. H. Sells

373 Incorporation of 6-Thioguanosine and 4-Thiouridine into RNA. Application to Isolation of Newly Synthesised RNA by Affinity Chromatography
W. T. Melvin, H. B. Milne, A. A. Slater, H. J. Allen, and H. M. Keir

389 Preferential Charging of $tRNA_f^{Met}$ in *Escherichia coli* K12
E. Z. Ron, A. Falk, D. Helberg, S. Horowitz, and M. Zeevi

397 Models for mRNA Translation: Theory versus Experiment
G. von Heijne, L. Nilsson, and C. Blomberg

417 Purification and Properties of a New Restriction Endonuclease from *Haemophilus influenzae* Rf
L. Kauc and A. Piekarowicz

449 FAD Is Covalently Attached to Peptidyl-tRNA during Cell-free Synthesis of 6-Hydroxy-D-nicotine Oxidase
H.-H. Hamm and K. Decker

455 Synthesis and Breakdown of pppA2′p5′A2′p5′A and Transient Inhibition of Protein Synthesis in Extracts from Interferon-Treated and Control Cells
B. R. G. Williams, I. M. Kerr, C. S. Gilbert, C. N. White, and L. A. Ball

471 Purification of the Elongation Factors Present in Spinach Chloroplasts
O. Tiboni, G. Di Pasquale, and O. Ciferri

479 The Isolation and Characterization of Elongation Factor eEF-Ts from Krebs-II Mouse-Ascites-Tumor Cells and Its Role in the Elongation Process
H. Grasmuk, R. D. Nolan, and J. Drews

509 Studies on Polypeptide-Chain-Elongation Factors from an Extreme Thermophile, *Thermus thermophilus* HB8. 1. Purification and Some Properties of the Purified Factors
K. Arai, Y. Ota, N. Arai, S. Nakamura, C. Henneke, T. Oshima, and Y. Kaziro

521 Studies on Polypeptide-Chain-Elongation Factors from an Extreme Thermophile, *Thermus thermophilus* HB8. 2. Catalytic Properties
K. Arai, N. Arai, S. Nakamura, T. Oshima, and Y. Kaziro

533 Studies on Polypeptide-Chain-Elongation Factors from an Extreme Thermophile, *Thermus thermophilus* HB8. 3. Molecular Properties
S. Nakamura, S. Ohta, K. Arai, N. Arai, T. Oshima, and Y. Kaziro

569 Complexity of Polysomal Polyadenylated RNA in Undifferentiated and Differentiated Neuroblastoma Cells
A. Felsani, F. Berthelot, F. Gros, and B. Croizat

597 *N*-Acetylphenylalanyl-tRNA Hydrolase from Yeast Purification and Properties
A. Coloma and C. F. Heredia

605 Electrophoretic Fractionation and Translation *in vitro* of Poly(rA)-Containing RNA from Maize Endosperm. Evidence for Two mRNAs Coding for Zein Protein
U. Wienand and G. Feix

613 Protons and Mg^{2+} Cations as Probes in Investigating the Role of GTP in Initiation Complex Formation
P. Beaudry, F. Begard, P. Douzou, and M. Grunberg-Manago

621 RNA Hybridization to DNA Coupled with Cyanogen-Bromide-Activated Sephadex. The Purification of Polyoma Messenger RNA
S. G. Siddell

Protein Chemistry and Structure

53 Structure and Replication of Echovirus Type 12. 1. Analysis of the Polypeptides and RNA of Echovirus 12 Particles
B. Rosenwirth and H. J. Eggers

61 Structure and Replication of Echovirus Type 12. 2. Viral Polypeptides Synthesized in the Infected Cell
B. Rosenwirth and H. J. Eggers

81 Study of the Tryptophan Residues of Lysozyme Using ^1H Nuclear Magnetic Resonance
R. Cassels, C. M. Dobson, F. M. Poulsen, and R. J. P. Williams

99 Complete Assignment of Aromatic ^1H Nuclear Magnetic Resonances of the Tyrosine Residues of Hen Lysozyme
C. M. Dobson, S. J. Ferguson, F. M. Poulson, and R. J. P. Williams

183 Type-I Trimer and Type-I Collagen in Neutral-Salt-Soluble Lathyritic-Rat Dentine
M. Wohllebe and D. J. Carmichael

209 Chemical and Spectral Properties of Putidamonooxin, the Iron-Containing and Acid-Labile-Sulfur-Containing Monooxygenase of a 4-Methoxybenzoate O-Demethylase from *Pseudomonas putida*
F.-H. Bernhardt, E. Heymann, and P. S. Traylor

253 Properties of Human Hemoglobin Immobilized on Sepharose 4B
M. R. Rossi Fanelli, G. Amiconi, and E. Antonini

309 The Binding of Protons and Inositol Hexakisphosphate to Ligated and Unligated Human Des-$Arg^{141\alpha}$-hemoglobin
G. G. M. van Beek, E. R. P. Zuiderweg, and S. H. de Bruin

317 Dissociation of Light Chains from Cardiac Myosin
M. Higuchi, F. Fábián, T. Wandzilak, Jr., D. T. Mason, and J. Wikman-Coffelt

361 The ^1H Nuclear-Magnetic-Resonance Spectra of Neurotoxin I and Cardiotoxin $V^{II}4$ from *Naja mossambica mossambica*
J. Lauterwein, M. Lazdunski, and K. Wüthrich

403 Effect of Various Nucleotides on Folding and Enzymic Properties of a Synthetic 63-Residue Analog of Ribonuclease A and Natural Ribonuclease A
B. Gutte

427 Amino-Acid Sequence of the Pyridoxal-Phosphate-Binding Site in *Escherichia coli* Maltodextrin Phosphorylase
K. H. Schächtele, E. Schiltz, and D. Palm

563 Physical Evidence for the Assembly of A and B Chains of Human Placental Collagen in a Single Triple Helix
H. Bentz, H. P. Bächinger, R. Glanville, and K. Kühn

579 Structure and Synthesis of a Lipid-Containing Bacteriophage. Dissociation of Bacteriophage PM2 into Its Morphological Subunits
R. Schäfer, P. Künzler, A. Lustig, and R. M. Franklin

589 Structure and Synthesis of a Lipid-Containing Bacteriophage. Total Reconstitution of Bacteriophage PM2 *in vitro*
R. Schäfer and R. M. Franklin

Enzymology

25 Purification and Physicochemical Properties of Fatty Acid Synthetase and Acetyl-CoA Carboxylase from Lactating Rabbit Mammary Gland
D. G. Hardie and P. Cohen

35 Plant Microbody Proteins. Purification and Glycoprotein Nature of Glyoxysomal Isocitrate Lyase from Cucumber Cotyledons
J. Frevert and H. Kindl

111 Demonstration of T-Transferase Deficiency in Tn-Polyagglutinable Blood Samples
J.-P. Cartron, G. Andreu, J. Cartron, G. W. G. Bird, C. Salmon, and A. Gerbal

165 Effect of Phospholipid Depletion by Phospholipases on the Properties and Formation of the Multiple Monoamine Oxidase Forms in the Rat Liver
S. P. Baker and B. A. Hemsworth

175 The Mechanism of Substrate Activation of Pyruvate Decarboxylase: A First Approach
G. Hübner, R. Weidhase, and A. Schellenberger

197 A New Method of Chemical Modification of N^6-Amino Group in Adenine Nucleotides with Formaldehyde and a Thiol and Its Application to Preparing Immobilized ADP and ATP
Y. Yamazaki and H. Suzuki

301 *N*-(2-Oxoacyl)amino Acids and Nitriles as Final Products of Dipeptide Chlorination Mediated by the Myeloperoxidase/H_2O_2/Cl^- System
T. Stelmaszyńska and J. M. Zgliczyński

325 Control of Ornithine Decarboxylase Activity in *Physarum* by Polyamines
J. L. A. Mitchell, D. D. Carter, and J. A. Rybski

341 A Systematic Study of Effects of Non-Ionic Detergents on Solubilization and Activity of Pig Kidney Adenylate Cyclase
G. Guillon, C. Roy, and S. Jard

437 Refolding and Reactivation of *Escherichia coli* Tryptophan Synthase β_2 Subunit after Inactivation and Dissociation in Guanidine Hydrochloride at Acidic pH
C. Groha[illegible] Bartholmes, and R. Jaenicke

499 Affinity Pur[illegible]n and Properties of Cathepsin-E-Like Acid Proteinase from Rat Spleen
K. Yamar[illegible], N. Katsuda, and K. Kato

Carbohydrates, Lipids and Other Natural Products

105 Structural Studies of a Hexasaccharide from a Blood-Group-Active Glycoprotein and Evidence for the Binding of Its Terminal Non-Reducing *N*-Acetyl-D-glucosamine Residues to Wheat Germ Agglutinin
M. M. Wrann and H. Tuppy

289 The Poly(glycosyl) Chains of Glycoproteins. Characterisation of a Novel Type of Glycoprotein Saccharides from Human Erythrocyte Membrane
T. Krusius, J. Finne, and H. Rauvala

Membranes and Bioenergetics

9 Characterization of the Dicyclohexylcarbodiimide-Binding Protein Isolated from Chloroplast Membranes
K. Sigrist-Nelson, H. Sigrist, and A. Azzi

137 Kinetic Evidence for Two Sites in the Inhibition by Diuron of the Electron Transport in the bc_1 Segment of the Respiratory Chain in *Saccharomyces cerevisiae*
B. Convent, M. Briquet, and A. Goffeau

147 Interaction of Transferrin with Solubilized Receptors from Reticulocytes
F. M. van Bockxmeer, G. K. Yates, and E. H. Morgan

279 Assembly of the Mitochondrial Membrane System: Mutations in the *pho2* Locus of the Mitochondrial Genome of *Saccharomyces cerevisiae*
G. Coruzzi, M. K. Trembath, and A. Tzagoloff

349 Calcium Gradient-Dependent and Calcium Gradient-Independent Phosphorylation of Sarcoplasmic Reticulum by Orthophosphate. The Role of Magnesium
C. Punzengruber, R. Prager, N. Kolassa, F. Winkler, and J. Suko

381 Response of 9-Aminoacridine Fluorescence to Transmembrane pH-Gradients in Chromatophores from *Rhodopseudomonas sphaeroides*
R. P. Elema, P. A. M. Michels, and W. N. Konings

411 Processing *in vitro* of Precursor Periplasmic Proteins from *Escherichia coli*
L. L. Randall, L.-G. Josefsson, and S. J. S. Hardy

443 The Rate of Release of ATP from Its Complex with Myosin
J. W. Cardon and P. D. Boyer

491 Mutants *(ompA)* Affecting a Major Outer Membrane Protein of *Escherichia coli* K12
U. Henning, I. Sonntag, and I. Hindennach

545 Control of Proton Conduction by the H^+-ATPase in the Inner Mitochondrial Membrane
A. Pansini, F. Guerrieri, and S. Papa

Cellular Biochemistry and Metabolism

1 Fractionation of Brain Microtubule-Associated Proteins. Isolation of Two Different Proteins which Stimulate Tubulin Polymerization *in vitro*
W. Herzog and K. Weber

15 Native and Latent Forms of Liver Phosphorylase Phosphatase. The Non-Identity of Native Phosphorylase Phosphatase and Synthase Phosphatase
M. Laloux, W. Stalmans, and H.-G. Hers

189 β-Adrenergic Receptors in Brown-Adipose Tissue. Characterization and Alterations during Acclimation of Rats to Cold
L. Bukowiecki, N. Follea, J. Vallieres, and J. Leblanc

333 A New Biochemical Subtype of the Sanfilippo Syndrome: Characterization of the Storage Material in Cultured Fibroblasts of Sanfilippo C Patients
H. Kresse, K. von Figura, and U. Klein

463 Calcium-Induced Inactivation of Microtubule Formation in Brain Extracts. Presence of a Calcium-Dependent Protease Acting on Polymerization-Stimulating Microtubule-Associated Proteins
I. V. Sandoval and K. Weber

553 Difference in the Effect of Glucagon and Starvation upon L-Type Pyruvate Kinase from Rat Liver
T. J. C. Van Berkel, J. K. Kruijt, G. B. Van Den Berg, and J. F. Koster
